

# Gold Harbour & Drygalski Fjord

“Were you ever out in the Great Alone, when the moon was awful clear,  
And the icy mountains hemmed you in with a silence you most could hear?”

- Robert W. Service, *The Call of the Wild*

05:00 Early morning coffee, tea and pastries are available in the Compass Club

05:30 Wake up

Approx. 06:00 We hope to land & zodiac cruise at **Gold Harbour. Please Listen to Announcements**  
Gold Harbour lies on the southeast corner of South Georgia, at the foot of Salvesen Range. At the head of the bay is the stunning Bertrab Glacier, which hangs over vertical cliffs. Gold Harbour is home to around 25,000 breeding pairs of king penguins, which spill from the colony, into the tussock and onto the beach. Gentoo penguins can also be found in smaller colonies throughout the site and Elephant seals dominate the beaches.
