

POSITION:

GLACIOLOGIST

NATIONALITY:

CANADIAN

CAM BROWNE

Born and raised in Toronto, Canada, Cam has never felt totally at home in the big city. His thirst for wild landscapes and exploration was sparked at a young age, when his parents introduced him to Northern Ontario and the Rocky Mountains. Since then, Cam has fed his addiction to adventure by canoeing the remote rivers of Nunavut, mountain biking the hazy hills of Myanmar, ski mountaineering around the world and more. Cam is most at home where the road ends and the unexpected begins!

A highly skilled Zodiac driver, Cam has been driving boats since he was just seven and is more comfortable at the tiller of a Zodiac than behind the wheel of a car. He loves the challenge of rough-weather driving as well as navigating through ice, and looks forward to safely escorting you on your Zodiac cruises.

Cam has been an Expedition Guide and Zodiac driver with Quark Expeditions since 2013. With multiple Antarctic and Arctic seasons under his belt, he is excited to share the season with you!
